

# ASHISH SAIWAL

FULL STACK DEVELOPER

Navi Mumbai, India (Open to Remote Roles & Contract)

[Portfolio](#) | [LinkedIn](#) | +91 8275556819 | [ashishsaiwal.dev@gmail.com](mailto:ashishsaiwal.dev@gmail.com)

## Profile

- Frontend-focused Full Stack Developer with 7+ years of experience building scalable web and mobile applications using React, Next.js, Node.js, PostgreSQL, and AWS.
- Spearheaded engineering efforts for high-performance systems, leading a team of 5 developers and delivering production-ready solutions adopted by over 28,000 users, improving customer satisfaction by 20%.
- Drove end-to-end product ownership for five applications, improving code maintainability score by 20% through thorough code reviews and refactoring of legacy code. Also mentored three junior developers.

## EXPERIENCE

### SidePanda — Senior frontend developer

2024 - 2026

- Led frontend development for Shopify applications (Appointo, SignPanda, Depo) serving 30K+ active stores with a 4.9 average rating and processing \$2M+ in revenue.
- Developed new product features and resolved critical performance bottlenecks, increasing customer retention by 24%.
- Optimised React-based rendering and reduced Largest Contentful Paint (LCP), improving overall user experience across high-traffic merchant dashboards.
- Built and integrated AI-powered tools, including Prompt-to-Video and AI Baby Photoshoot, enabling users to generate creative assets through backend AI engines.

### Freelance — Full-stack developer

2023 - 2024

- Architected and launched 4+ production web applications across SaaS, marketing, and service industries, supporting early-stage startups and growth-focused businesses.

## SKILLS

### Frontend Development:

React, Next.js, TypeScript, JavaScript (ES6+), React Native, HTML5, CSS3, Performance Optimization, Responsive Design

### Backend Development:

Node.js, Express.js, REST API Development, Authentication (JWT/OAuth), API Integration

### Databases:

PostgreSQL, MongoDB, SQL, Database Design & Optimization

### Cloud & DevOps:

AWS, Docker, CI/CD Pipelines, Jenkins, Nginx, DigitalOcean, Vercel, Google Cloud Platform

### Architecture & Practices:

Scalable System Design, Component Architecture, Code Reviews, Agile/Scrum

- Authored a full-scale Auction Platform from UX design to cloud deployment, enabling real-time bidding and secure payment processing; handled 10k+ concurrent users and processed \$120k+ in transactions.
- Reduced infrastructure costs by 12% through optimised DigitalOcean deployment strategies.
- Improved application performance by reducing page load time by 48%, optimising React rendering and backend query performance.
- Delivered MVP builds in as little as 2 weeks, accelerating go-to-market timelines for startup clients.
- Achieved a 90% on-time delivery rate while collaborating with stakeholders.

## **Procreator Solutions Pvt Ltd** — *Head of Technology*

2019 - 2023

- Scaled engineering team from 3 to 9 developers, establishing agile workflows and code review standards.
- Architected and developed an AI-powered bot leveraging OpenAI APIs, reducing development time by 55%.
- Designed backend systems using Node.js, MongoDB, PostgreSQL, and containerised deployments with Docker.
- Led full-stack development of a SaaS product serving 28K+ users, ensuring scalability and performance.
- Implemented robust CI/CD pipelines using Jenkins and Docker, increasing deployment frequency by 3x.

## **Applied Cloud Computing** — *Senior software developer*

2017 - 2019

- Gathered detailed requirements from stakeholders and implemented complex business logic for three client applications, reducing post-deployment bug reports by 20% and increasing client satisfaction scores.
- Designed and produced a visual representation web application capable of handling high user traffic, processing thousands of users per minute.
- Re-engineered core product workflows by implementing automated build and deployment processes, reducing product output time by 75% and boosting team efficiency.
- Operated modular frontend components to support feature scalability and reduce future development effort.

## EDUCATION

### Master of Computer Application, Mumbai University, Mumbai

2015 — 2018

### Bachelor of Computer Application, SKC, Akola

2012 — 2015

## PROJECTS

### EduTech Project

- Spearheaded mobile application development using React Native, Node.js, Google Cloud, and Firebase, achieving 1M+ downloads for design education.
- Integrated user feedback by implementing feature enhancements based on 5.85K reviews, maintaining a 4.4-star rating and improving user satisfaction.

### MarTech Project

- Revamped the marketing platform (third iteration) with Next.js, Node.js, and Framer Motion,
- Integrated Zoho Catalyst and ZSQL, enhancing user experience and streamlining the content management system.

### Crypto Project

Forged a faster user experience by overhauling the front end of the cryptocurrency trading platform, reducing UI load times by 30% while maintaining a high level of security.

### Web3 Project

Pioneered the integration of secure multi-chain wallet functionality (Metamask, Near), improving security and reducing the risk of breaches by an estimated 50%.
